

MA.4.M.2.1

4th Grade FAST Test Prep Freebies

Alejandro started his jog at 7:30a.m. He spent some time jogging to and in the park. He also stopped to talk with a friend in the park for 6 minutes, then jogged back home in 27 minutes. If he finished jogging at 8:42 a.m., for how many minutes did Alejandro jog before he stopped to talk to his friend?
